Requirements Traceability Matrix

This matrix links major PRD requirements to verification. Exact test identifiers may be expanded to match the repository's test suite.

PRD requirement	Design area	Verification
FR-01 Customer fields	UI/quote model	TC-01, TC-02
FR-02 Member/age validation	UI/schema	TC-03
FR-03 Sum insured/pincode/cover	Quote validation	TC-01, TC-02
FR-04 Insurer-specific fields	Adapter metadata	TC-04
FR-05 Isolated sessions	PaneManager	TC-06, TC-07, TC-23
FR-06 Connection/reconnect	Connect board	TC-06, TC-07
FR-07 Parallel/timeout/retry	Orchestrator	TC-05, TC-14
FR-08 Cancellation/partial results	Orchestrator/storage	TC-05, TC-13
FR-09 Failure isolation	Orchestrator	TC-05, TC-12
FR-10 Results/status	Result model/UI	TC-05, TC-09
FR-11 Manual entry	Manual result flow	TC-08, TC-11, TC-28
FR-12 Cheapest comparable result	Comparison engine	TC-10, TC-27
FR-13 PDF 1–8 insurers	PDF service	TC-15, TC-16
FR-14 Rupee symbol	Font/template	TC-17
FR-15 Branding/disclaimer	Settings/PDF	TC-18
FR-16 Save/attach PDF	PDF/storage	TC-15, TC-19
FR-17 First-run setup	Setup UI	TC-18, TC-24, TC-25
FR-18 History/delete	SQLite/retention	TC-19, TC-20
FR-19 Platform installers	Packaging	TC-24, TC-25
FR-20 Guides/UAT	Delivery	Handover checklist
Secure storage	SecretStore	TC-21
IPC validation	Preload/main	TC-22
Update/migration	Release/storage	TC-26

Evidence requirements

Each test should record build version, platform, test data identifier (dummy only), expected/actual result, pass/fail, tester/date and sanitized evidence. A requirement is not verified merely because a test exists; record its actual result.
